About SWIGGI:

SWIGGI is a company that develops innovative genealogy technology in the memory of Simon Wiesenthal. It connects genealogy and geolocation data in a novel way. The purpose of SWIGGI is to honor the memory of Holocaust victims and preserve their stories by providing a platform for users to locate and explore the homes where they lived.
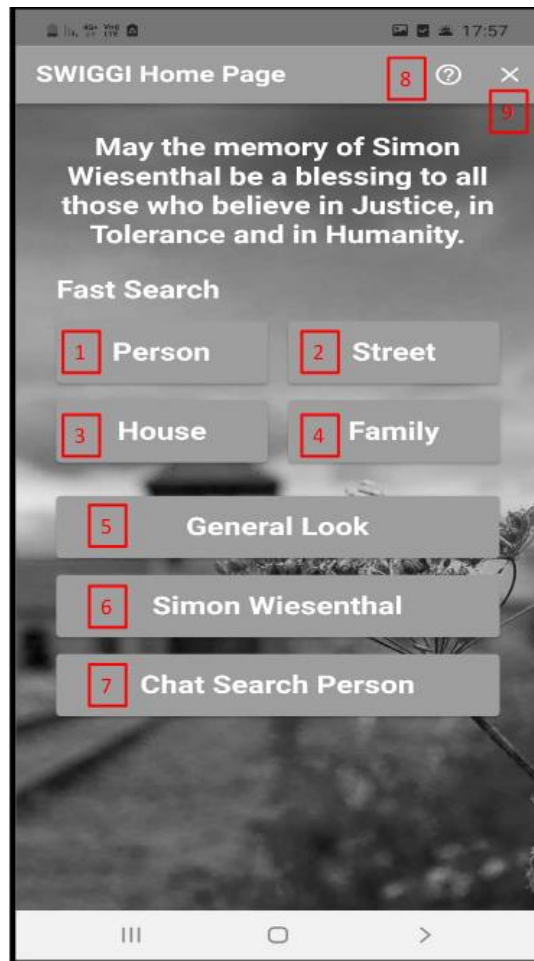

Before running the application, it must be installed on the phone (Android or IOS).
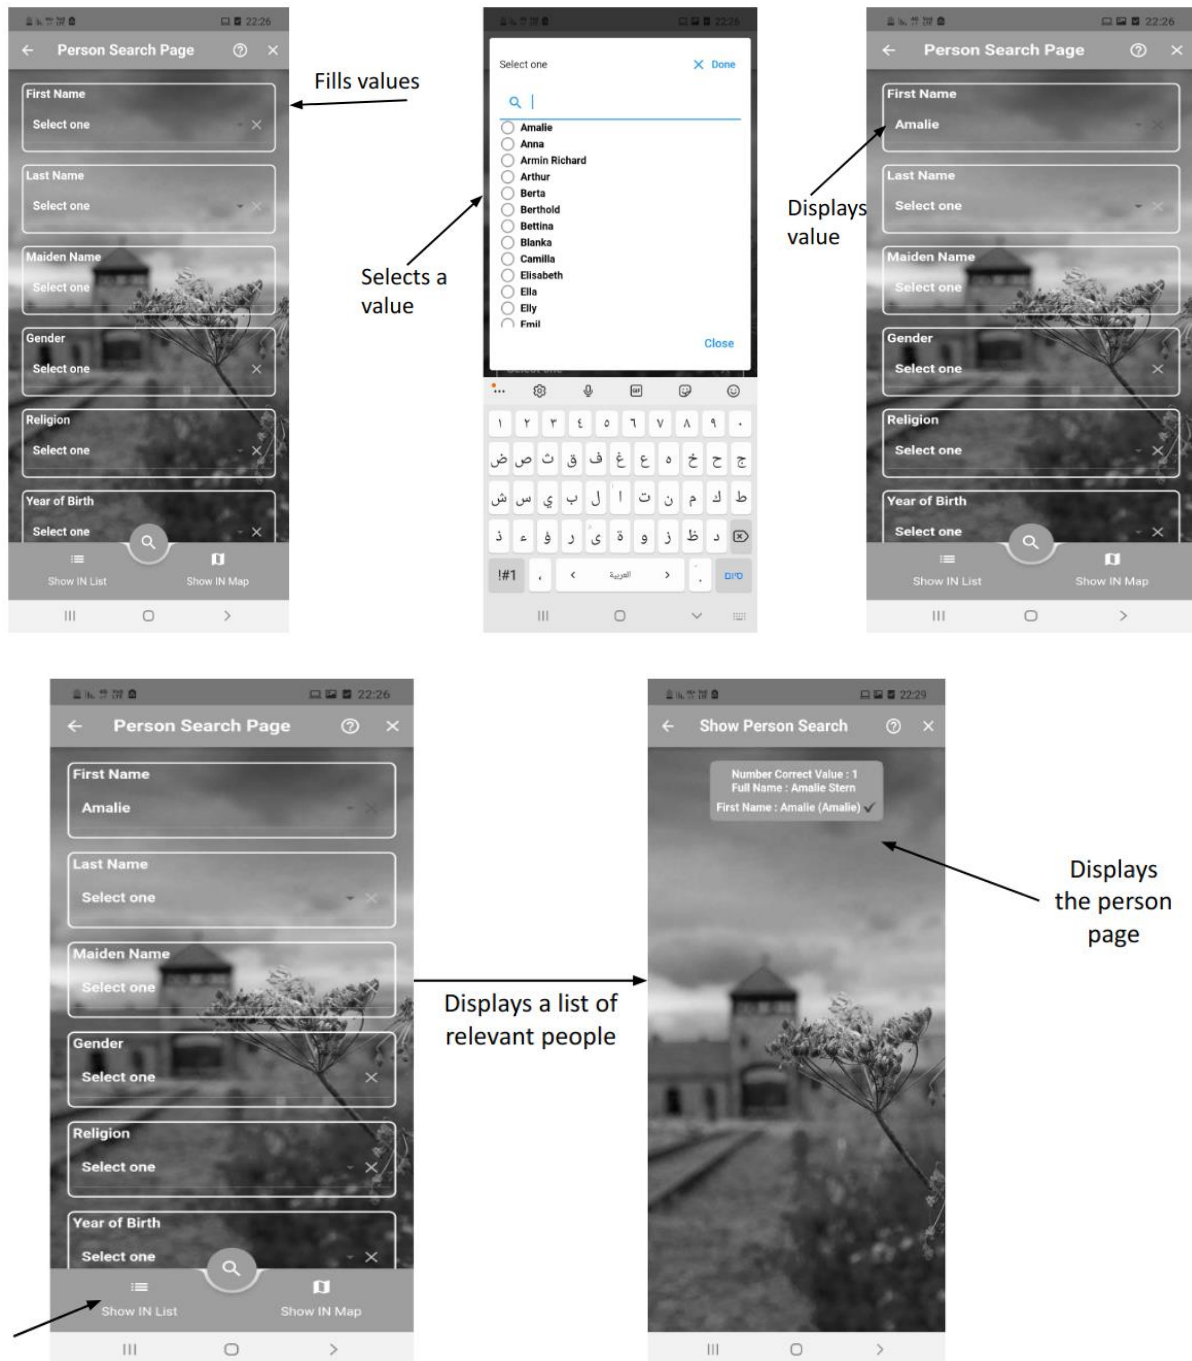

Main Page:
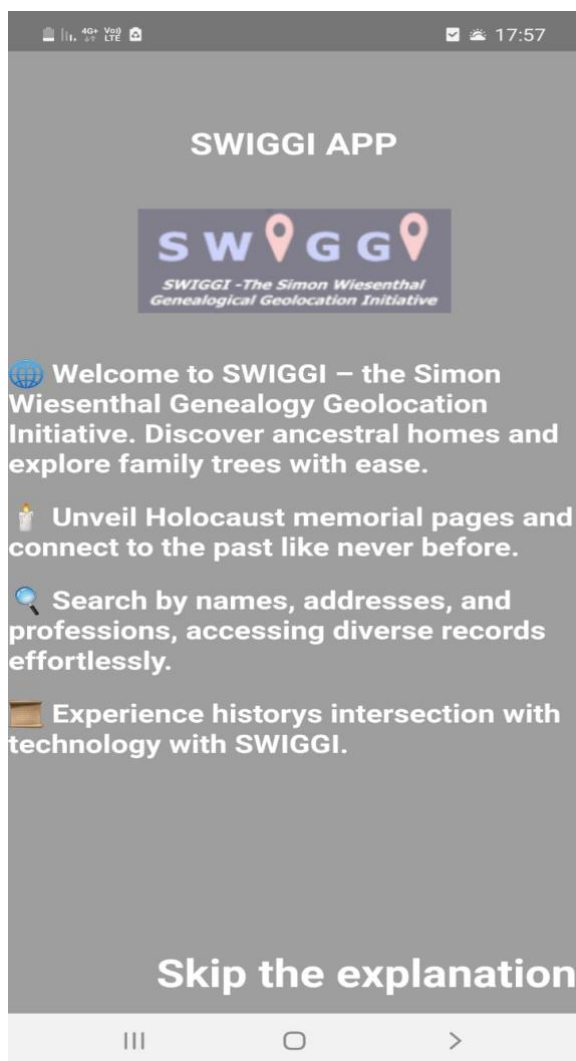

This page is the main page of the application showing the explanation of the application and its logo. You can skip the explanation and not continue to the end.

The vaious options available to the user:

1. Searching for a person
2. Street search
3. house search
4. family search
5. Presents general information about the Holocaust
6. Presents Simon's life story
7. Allows searching for a person through a conversation
8. Displays an explanation of how to use this page
9. Close app

6. Presents Simon's life story:

7. Allows searching for a person through a conversation:

Chat with AI to search person. Write down what you know about the person (such as: name, sex, date of birth, date of death, place of birth (state, city), place of death (state, city), place of residence (state, city, house, road).

**Because the algorithm does not corrects words, try not to write down wrong words.

It displays the person's name and also the similarity percentage with what you wrote.
